Dear Alumni, Parents and Friends of Tufts,

“The natural history of this archipelago is very remarkable... the greater number of its inhabitants, both vegetable and animal, being found nowhere else,” Charles Darwin keenly observed of the Galápagos Islands. Join us for this once-in-a-lifetime opportunity to experience firsthand the natural biodiversity of this UNESCO World Heritage-designated archipelago, still intact much as it was when first encountered by happenstance in 1535. Home to the amazing exotic birds, plants and animals that inspired Darwin, this “living laboratory of evolution” continues to offer the excitement of original discovery to every visitor.

Together with like-minded travelers from the Smithsonian, University of Maryland, the National Trust for Historic Preservation and the University of Southern California, cruise aboard the first-class exploration vessel *SANTA CRUZ II*, designed specifically to navigate remote archipelagos. The ship is fully equipped to enrich your Galápagos experience with complimentary snorkeling gear, a fleet of Zodiacs and a glass-bottom boat. Certified onboard naturalists share their expert insights during excursions, enhancing your understanding of this mysterious natural realm.

These islands, each with its own ecosystem, are teeming with vibrant flora and captivating fauna, including the flightless cormorant and the marine iguana—species unknown anywhere else in the world. With few natural predators on the islands, the abundant wildlife is uniquely receptive to up-close human company—only here can you almost touch spiny-backed iguanas and snorkel alongside playful seals and tropical penguins.

On mainland Ecuador, explore UNESCO World Heritage-designated Quito, known for magnificent colonial churches with opulent gold interiors; walk through the historic Old Town; and stand on the Equator with one foot in either hemisphere.

Complement your “Islands of the Tortoises” cruise with the exclusive Pre-Program Option to Cuenca, a historic colonial city, and the Post-Program Option to the legendary “lost city” of Machu Picchu, a UNESCO World Heritage site, and the Sacred Valley.

This incredible travel program is an exceptional value—reserve now as space is limited and while Early Booking Savings are still available. To make a reservation, call our Tufts representative at Gohagan & Company at 1-800-922-3088.

Cheers!

The enigma of the Galápagos Islands

*"This archipelago is very remarkable:
it seems to be a little world within itself..."*

— Charles Darwin

Six hundred miles off the coast of Ecuador, isolated by distance and ocean blue, lies a strange and wonderful archipelago. The Galápagos Islands inspired revolutionary scientific theories, and it is their bizarre beauty that make this journey so sensational. Formed millions of years ago by volcanic eruptions, the islands' dynamic landscapes are now safe homes to quirky finches, primeval iguanas and fire-bright crabs.

Charles Darwin's research is inseparable from the Galápagos' mystery, particularly his theory of natural selection and evolution, *On the Origin of Species*, published in 1859. Scientists are still theorizing how Galápagos species arrived on the islands—were they transported by birds, whalers, buccaneers or the cold Humboldt Current?

Darwin noted that life in the Galápagos Islands is comprised of mostly "aboriginal creations, found nowhere else." He hypothesized that these species survived by independent evolution; separated from the mainland and with few natural predators, they were able to thrive and adapt in unusual manners. This is why Galápagos wildlife never developed a fear of humans and still allow close encounters—making your journey an intimate and unforgettable experience.

Look for sea stars and sea turtles while snorkeling in the crystal clear waters.

U.S./Quito, Ecuador

Monday, Day 1

Fly to Quito, the highest capital city in the world at 9350 feet, and transfer to the JW MARRIOTT. Surrounded by snowcapped peaks, yet only miles from the Equator, Quito is a UNESCO World Heritage site known for its magnificent Spanish colonial architecture and lively street life.

Quito

Tuesday, Day 2

Quito is a city of startling contrasts, where thousands of years of South American traditions are interwoven with imported Catholicism, the Spanish language and European culture. Quaint family-owned shops and open-air markets are steps away from gleaming skyscrapers and ornate Spanish Baroque cathedrals favored by the *conquistadores*.

On the panoramic tour through the heart of Quito, visit the noble, 16th-century Iglesia de San Francisco, the Moorish-influenced Catedral Metropolitana and Iglesia de La Compañía de Jesus, renowned for its lavish interiors decorated with an estimated seven tons of gold leaf. Tour Casa del Alabado, an impressive private museum of pre-Columbian art and archaeological pieces housed in a 17th-century colonial mansion.

This evening, attend the private Welcome Reception in the hotel.

Quito

Wednesday, Day 3

Stand in the "middle of the world" with one foot in each hemisphere at the Equator and see the hundred-foot-tall monument where an 18th-century multinational

expedition located zero degrees latitude, accurately establishing the earth's size for the first time. Admire spectacular views of the surrounding mountains and tour the Ethnographic Museum, illustrating the diversity of Ecuador's indigenous peoples.

The remainder of the day is at leisure to explore Quito.

Quito/Baltra, Galápagos Islands/ Santa Cruz

Thursday, Day 4

Fly to the small island of Baltra and embark the SANTA CRUZ II in time for lunch. Attend your first briefing by the ship's English-speaking Ecuadorian naturalists while cruising to Santa Cruz Island, known for prehistoric-looking iguanas, prickly pear cacti, vibrantly colored flamingos and pristine white beaches.

Aboard Zodiacs, explore the shores of beautiful mangrove-lined islets and seek out charming blue- and red-footed boobies, brown pelicans and magnificent frigatebirds, whose males inflate their bright red throat pouches to impress potential mates. Land in a small lagoon favored by elegant pink flamingos, and ascend Dragon Hill for spectacular views of the western islands and the chance to observe land iguanas.

Attend the Captain's Welcome Reception on board the ship this evening.

Isabela/Fernandina

Friday, Day 5

Cruise through the Bolivar Channel, showcasing the stunning volcanic peaks of Isabela and Fernandina. Spend the morning at seahorse-shaped Isabela, a younger island formed by six shield volcanoes. On the arid shore you may encounter the largest land iguanas in the Galápagos as well as giant tortoises and flightless cormorants. Snorkel off Punta Vicente Roca or search the northern shores for Nazca boobies, Darwin's finches and penguins.

Observe giant tortoises on Isabela Island.

Dominated by the sweeping slopes of La Cumbre Volcano, the moon-like landscapes of Fernandina are the most untouched of all the Galápagos Islands,

The distinctive conical shape and steep slopes of the Galápagos Islands are a result of five million years of repeated volcanic activity that caused this chain of islands to emerge from the bottom of the ocean floor.

The magnificent male frigatebird is known for its unique mating “dance.”

home to the famous flightless cormorant, sea lions, Galápagos penguins, marine iguanas and pelicans. Explore how recent volcanic activity has reshaped the island’s topography, creating an ever-changing environment for the thriving species found nowhere else.

Santa Cruz

Saturday, Day 6

Learn more about efforts to protect the island’s rare giant tortoises in the Charles Darwin Research Station, then transfer to Santa Cruz’s cool, lush highlands for lunch amid an endemic *Scalesia* cloud forest.

This afternoon, choose from a variety of leisure activities. Swim in clear blue Tortuga Bay, secluded home to black turtles, colorful reef fish, marine iguanas and lava gulls. Walk the island’s trails or stroll along serene sandy beaches.

Post Office Bay, Floreana/ Champion Islet/Cormorant Point

Sunday, Day 7

Floreana was one of the first islands in the archipelago to be settled by European whalers and buccaneers. At Post Office Bay, peruse the mail in the wooden barrel “post office,” established by whalers to transport letters home on passing ships. Discover a piece of mail to hand-deliver to its final destination, or leave your own message to be delivered by a future visitor.

Cruise via Zodiac or snorkel in the clear waters surrounding pristine Champion Islet, encountering pristine sea horses, sea turtles, sea lions, coral hawkfish and other aquatic wonders; scan the skies and shorelines for possible sightings of the endemic Floreana mockingbird, common to the islands when Darwin visited, but critically endangered today; and walk along the brackish lagoons and mangroves near Cormorant Point, famous for flamingos and pelicans.

Attend the Captain’s Farewell Reception on board the ship this evening.

Baltra/Guayaquil, Ecuador

Monday, Day 8

Dock in Baltra to disembark and board your late-morning flight to Guayaquil.

Continue on the Machu Picchu and the Sacred Valley Post-Program Option or enjoy a day room in the HILTON COLÓN HOTEL and depart late this evening for the U.S.

U.S.

Tuesday, Day 9

Arrive in the U.S.

Please note that the itinerary and cruise pattern are dependent on weather, sea conditions and Galápagos National Park Service regulations.

Take photographs of a lifetime during up-close encounters with Galápagos wildlife.

Colonial Cuenca

See the Andes’ verdant slopes and the city’s sprawl from the Turi vista. Spend one night in Guayaquil and two nights in Cuenca in ideally located hotels.

*The Pre-Program Option is at additional cost.

Delight in this extraordinary opportunity to experience Machu Picchu, the majestic “lost city of the Incas”; the lush Sacred Valley; and the colonial and Incan traditions of Cuzco.

Perched on an awe-inspiring mountain range in the Peruvian Andes, Machu Picchu was obscured from humankind for 400 years until Yale Professor Hiram Bingham literally stumbled upon it in 1911. A century of research, excavation and preservation still has not revealed the secrets of this UNESCO World Heritage site’s former purpose, residents or abandonment.

Here, village craftsmen employ age-old techniques to weave intricate tapestries and sculpt colorful pottery.

In the historic Inca capital of Cuzco, a UNESCO World Heritage site, see the stone fortress of Sacsayhuamán and grand Baroque- and Renaissance-style churches that provide a fascinating mix of pre-Columbian and colonial influences.
