EXPEDITION TO
ANTARCTICA

aboard the Exclusively Chartered Small Ship
Five-Star L’AUSTRAL

January 11 to 24, 2022

BOOK WITH CONFIDENCE!
No land/cruise cancellation fees for new bookings until 61 days prior to trip departure.
“Everything wears an aspect of unreality,” Ernest Shackleton wrote, “icebergs hang upside down in the sky; the land appears as layers of silvery or golden cloud. Cloud-banks look like land, icebergs masquerade as islands...” Be among the fortunate few to set foot on the continent of Antarctica. During this extraordinary 14-day journey to the bottom of the world, retrace sea lanes navigated by storied explorers Shackleton, Roald Amundsen and Robert Falcon Scott, inspired to seek out “The White Continent.” See how spectacular illuminations of this last frontier reveal the majesty and contrasts of its unique wilderness. Watch as normal human scales and reference points disappear amidst the grandeur of nature in its most pristine form, from extended sunrises that paint the icescape in soft shades of pink to the lingering golden light of the austral summer, where humpback whales, leopard seals and Adélie penguins swim among turquoise glaciers and glimmering icebergs.

Cruise for nine nights aboard the exclusively chartered L’AUSTRAL—both Five-Star and ice-class rated—and one of the ships within of the finest fleet plying Antarctic waters. All accommodations afford ocean views and 95 percent feature private balconies. L’AUSTRAL’s state-of-the-art technology and design set high standards in environmental protection and comfort.

Your onboard team of naturalists will guide excursions aboard sturdy Zodiac craft as you explore amid floating ice sculptures, intricate ecosystems and abundant wildlife species that have adapted to the harshest weather conditions on Earth—including penguins and seals that exhibit little or no fear of humans. A comprehensive schedule of exclusive and specially arranged lectures will complete your optimal Antarctic adventure.

We invite you on this expedition of a lifetime—a once-in-a-lifetime Antarctica experience. All excursions are included and complimentary alcoholic and nonalcoholic beverages are served on board. This exceptional program provides the best Antarctic cruise value and sells out quickly, so make your reservation today.

Faculty Host

Dr. Romero received his PhD from Stanford and has been teaching in the Tufts Biology Department for over 20 years. He recently received an award for outstanding mentoring of undergraduate and graduate research students from the White House and the National Science Foundation. His research focuses on stress in wild animals, with both laboratory and field components, and on how understanding stress can help in the conservation of those species. On this departure Professor Romero will discuss how climate change causes stress in animals and how understanding animals’ responses to stress will inform conservation efforts.

The safety and well-being of our travelers remains our highest priority. Cruise lines and some other providers of services (as well as, potentially, some countries) require all passengers traveling on our programs to present confirmation of a full COVID-19 vaccination, and, as well, passengers may have to produce evidence of a recent negative COVID test. All our staff are committed to adhering to all health and safety protocols from the start of your trip to the end as directed by the United States Centers for Disease Control and Prevention, overseas health officials as well as those protocols mandated by your cruise company (if applicable) and other suppliers of services. Detailed protocol information tailored to your travel program will be mailed to you along with additional pre-departure information.
Wildlife Conservation

The unique international Antarctic Treaty protects the wildlife and natural habitats of Antarctica and provides a guide for visitors to this great continent where no country has sovereignty. To protect the fragile Antarctic environment, all visitors will go ashore in small groups, so as not to crowd rookeries, disturb nesting sites or disrupt research. Visitors will be asked not to leave a trace of their presence, by not removing or leaving anything ashore.

U.S.
Tuesday, January 11
Depart the U.S.

Buenos Aires, Argentina
Wednesday, January 12
Arrive in cosmopolitan Buenos Aires and check into the Five-Star INTERCONTINENTAL BUENOS AIRES HOTEL, ideally located within walking distance of the Presidential Palace (Casa Rosada) and the fin-de-siècle Avenida de Mayo. This evening, attend the Welcome Reception.

Buenos Aires
Thursday, January 13
Birthplace of the tango, Buenos Aires is a city of diverse and dynamic barrios (neighborhoods). See the erstwhile Italian district of La Boca, Monserrat’s grand public buildings, historical Plaza de Mayo, Palermo’s lavish parks, Puerto Madero’s fashionable riverfront community and the authentic old quarter of San Telmo. Discover the elaborate vaults and majestic mausoleums of Recoleta Cemetery, the final resting place of Argentina’s iconic former First Lady, Eva Perón.

Buenos Aires/Ushuaia
Friday, January 14
Fly to Ushuaia, the world’s southernmost city and the gateway to Antarctica. Embark L’AUSTRAL this afternoon and cruise through storied Beagle Channel, named for the research vessel in which Charles Darwin surveyed the coast of South America from 1861 to 1865. Attend the Captain’s Welcome Reception this evening.

Cruising the Drake Passage
Saturday, January 15 and Sunday, January 16
Cross the legendary Drake Passage and watch for wandering albatrosses, diving petrels and breaching fins of humpback whales feeding from nutrient-rich waters formed by the Antarctic Convergence. Your expedition team of naturalists will present insightful lectures, preparing you for your first landing in Antarctica. During the evening, enjoy the lingering twilight of the Antarctic summer.

Please note that the ship’s cruising pattern and positionings are dependent on weather, ice and ocean conditions and are subject to change.

Cruising Antarctica
Monday, January 17 to Friday, January 21
Cruise below the 60th parallel south to the outer shores and islands of the Antarctic Peninsula, Earth’s last frontier. Here, explore some of the world’s most pristine wilderness, where towering mountains of ice and volcanic rock create precipitous coastlines and islands, and ever changing patterns of ice stretch toward the boundless blue horizon. In this seemingly harsh environment, a vast array of marine life flourishes, including millions of penguins, countless seabirds and thousands of seals and whales. An otherworldly topography of volcanoes and glaciers, populated with riveting wildlife and historic outposts unfolds, completely immersing you in the irresistible nuances of Earth’s most inaccessible continent for the complete Antarctic experience.

Journey through breathtaking, glacier-lined Neumayer Channel to rugged Goudier Island. Visit historic Port Lockroy, an intelligence post for British espionage during World War II converted to a scientific base in the 1950s. Nestled among serene mountain peaks as high as 6,000 feet, the surrounding grounds and islands are populated by blue-eyed shags and gentoo penguins. At the living museum known as “Base A,” gain insight into daily life at the former research station and mail a postcard with an Antarctica postmark from the official British Post Office.

In contrast to sociable Adélie penguins, who congregate in large colonies, the bold, powerful and curious leopard seal cherishes solitude and independence for hunting and hiding.

Rocky Jouglia Point on Wiencke Island offers a rare opportunity to view the skeletal remains of an adult blue whale and to see populous colonies of gentoo penguins and kelp gulls that inhabit the entire region. Call at Petermann Island, the southernmost point of your journey, where you can observe thriving rookeries of Adélie and gentoo penguins, blue-eyed shags, leopard seals and humpback whales. Flanked by sheer glacial cliffs between the Antarctic Peninsula and Booth Island, pass through the translucent waters of the seven-mile-long Lemaire Channel, known as the “Kodak Gap” for its breathtaking mountain scenery. Listen for the low rumbling of Rudolf Glacier as it calves colossal icebergs into Neko Harbor, named for an early-20th-century Scottish whaling boat. Surrounded by soaring glaciers and snow-covered mountains, this spectacular harbor is one of the most dramatic sights on your expedition. Here, make your continental landing in Antarctica.

In Paradise Harbor, crystal cliffs of ice descend from glaciated mountains into iceberg-laden waters along the Antarctic Peninsula’s western coast. Named by 19th-century whalers who sought shelter in its coves, it provides an ideal sanctuary for marine wildlife including humpback whales, crabeater seals and Cape petrels.
Watch chinstrap penguins, eponymously named for the black band that circles their heads, as they gather in large breeding colonies for unparalleled up-close viewing.

The rim of a dormant volcano crater, Deception Island encircles the Port Foster caldera. The ship enters through Neptune's Bellsows, a sublime harbor ringed by snowcapped peaks and sheer cliffs. In Pendulum Cove, see steaming, geothermally heated shallows. Observe the astounding colony of over 100,000 pairs of chinstrap penguins at Baily Head. Walk along the black-sand beaches of Telefon Bay to nearby craters for firsthand insight into the pivotal volcanic activity that created the island and shaped the natural history of the region.

One of the smallest but most alluring of the South Shetland Islands, crescent-shaped Half Moon Island is known for its craggy volcanic rock formations and tranquil lagoons. It is also the site of Cámara Station, a base monitored by Argentine biologists studying regional wildlife. Observe the island’s colony of chinstrap penguins. Attend the Captain’s Farewell Reception Saturday evening.

Cruising the Drake Passage/
Ushuaia, Argentina
Saturday, January 22
Cross the Drake Passage and enjoy informative discussions about your Antarctic experience with the ship’s naturalists.

Ushuaia/Buenos Aires
Sunday, January 23
Disembark in Ushuaia and fly to Buenos Aires.

Iguazú Falls
Post-Program Option*

The UNESCO World Heritage site of Iguazú Falls is among the world’s most spectacular natural wonders, situated in one of South America’s last remaining virgin rainforests. Spanning nearly two miles along the Argentinian border of Brazil, with more than 275 waterfalls cascading from heights of 270 feet, Iguazú Falls is three times as wide and nearly twice as high as Niagara Falls. Visit Parque das Aves jungle reserve, a nature lover’s paradise, home to more than 350 species of birds, 66 varieties of mammals and an outstanding array of reptiles, fish, butterflies and flora. This exclusive, three-night Post-Program Option features one night in the Five-Star InterContinental Buenos Aires Hotel and two nights in the Five-Star Meliá Iguazú Falls. Buenos Aires/Iguazú round-trip airfare is included.

*The Post-Program Option is available at additional cost. Details will be provided with your reservation confirmation.
