Columbia and Snake Rivers: Food, Wine, and History

SEPTEMBER 29 - OCTOBER 6, 2024
ABOARD NATIONAL GEOGRAPHIC SEA LION

10% GROUP SAVINGS & MORE SPECIAL OFFERS
Dear Alumni, Parents & Friends,

We invite you to join us in cruising the mighty Columbia and Snake Rivers, taking in the scenery and splendor of this storied region. Aboard the National Geographic Sea Lion, we’ll journey into history, following in the wake of Lewis and Clark to discover a diverse and bountiful region cultivated over thousands of years by its indigenous people. See time layered in the riverbanks, where the Missoula Floods of 15,000 years ago carved much of the route you travel and the landslides of 500 years ago altered the river’s course by a full mile—events the expedition’s geologist will explain. In fact, the full expedition team puts everything into context, weaving an ongoing narrative from each day’s events.

This fertile region bursts with flavors from the orchards and farmlands along our route and in the dining room as we provision the ship from local markets, vineyards, and breweries within a 250-mile radius. Enjoy complimentary wine, beer, and cocktails onboard including nightly tastings of the region’s best wines hand picked by the Executive Wine Editor of Food & Wine magazine, Ray Isle. Learn about the unique terroirs from the winemakers themselves as we welcome them on board and visit wineries in Walla Walla.

Witness modern marvels of human engineering while transiting eight towering locks and sailing under large-span bridges. Enjoy kayaking, hiking, and visits to fascinating historic sites and museums.

I hope you will be able to join us September 29 – October 6, 2024. To reserve your place, please return the reservation form or call Lindblad Expeditions at 833-985-1261.

Sincerely,

Discover a Spectacular Landscape Carved Over Eons

The powerful Columbia and Snake Rivers flow through some of the world’s most geologically fascinating landscapes, carved over time by tumultuous floods and volcanic eruptions. Today, you are able to appreciate its beauty peacefully aboard a 31-cabin expedition ship, employing Zodiacs and kayaks to explore its wild reaches up close. Discover towering canyons, massive waterfalls, ancient petroglyphs, and rocky shorelines where bighorn sheep roam free. Around every bend of the Columbia and Snake Rivers, the region’s unique natural history reveals itself in all its glory. These rivers also offer up another exhilarating marvel as you travel through a series of eight locks that lift or lower the ship some 700 feet, nearly ten times what the Panama Canal entails.

In the Wake of Early Explorers

The fascinating legacy of Lewis and Clark’s epic 19th-century expedition permeates this region. Traveling in their footsteps, you gain a deeper understanding of the region’s history and learn about their interactions with Native American tribes. Visit Cape Disappointment, where Meriwether Lewis first saw the Pacific in 1805, and take in the whole story at the Lewis & Clark Interpretive Center. The onboard historian provides crucial insight along the way, and a Nez Perce storyteller will come aboard for an evening of culture sharing.
The Ultimate Expedition Experience

Your Platform for Discovery

An expedition ship is an ideal way to explore the Pacific Northwest. Traveling expedition-style allows you to experience the region with all your senses—seeing its grand beauty, hearing its waterfalls and wild silences, feeling its fresh air, and tasting it daily in the delectable, locally sourced food served aboard. You travel in comfort aboard the purpose built National Geographic Sea Lion, which features open decks, spacious cabins, generous windows, and an accommodating bow area. The 31-cabin ship is key to your experience. An onboard fleet of Zodiacs and kayaks are the perfect vehicles to have up-close views of the dramatic scenery of the Palouse River. Life aboard ship is warm and welcoming. The lounge graciously accommodates the expedition community during nightly Recap and wine tastings, and the casual dining room serves meals in single seatings with unassigned tables for easy mingling.

See, Do & Learn More with an Expert Team

Your time on the river and ashore is spent in the company of a veteran expedition team that is passionate about the region’s rich history. Relive moments in modern history—from early exploration to construction of the dams—through the eyes of the historian. Join the geologist to marvel at layers of ancient basaltic lava. Enjoy accessible wine education from our food and wine expert and taste the region's diverse terroirs. Capture everything with the help of our certified photo instructor. Voyage Itinerary

Delve deep into the history, harvests and landscapes of the Columbia and Snake rivers, while also indulging your senses with culinary splendors and world-class wines of the region. Travel as early explorers, settlers, and indigenous peoples did—by waterways that stretch far inland from the Pacific Ocean. Enjoy spectacular scenery including views of Mt. Hood and Mt. Adams. Tour museums and historic sites, taste local produce and wines, and actively explore by foot, kayak, Zodiac, and jet boat. A top team—including naturalists, a historian, and a geologist—will illuminate all we see, and a food and wine expert will guide us through the region’s bounty. Take it all in from the unmatched perspective of a nimble, intimately-scaled small ship.

DAY 1 • Portland, Oregon/Embark
Arrive in the early afternoon in Portland, located on the Columbia and Willamette Rivers in the shadow of snow-capped Mount Hood. Embark in early evening and discover why Portland is nicknamed “Bridgetown” as we sail under eight of the city’s 12 eclectic bridges along the Willamette River, the first of five rivers we will encounter on this voyage. (D)

DAY 2 • Astoria
We begin our journey by navigating the Columbia to the mouth of the river at Astoria. At Cape Disappointment, take in the dramatic scenery where Meriwether Lewis saw the Pacific for the first time in 1805 and choose to visit the Lewis and Clark Interpretive Center to learn more. In the afternoon, there are several options to explore the Astoria area, from learning its modern history at fascinating museums to sampling the local beer and oysters in this seaside town. (B,L,D)

DAY 3 • Cruising/Hood River
Immerse yourself in natural and man-made marvels as we explore the scenic Columbia and pass through Bonneville Lock and Dam. Take a steaming cup of coffee to the bow where our naturalists offer honest perspectives on the controversial history of dams along the river. In the afternoon, make a stop at neck-craning Multnomah Falls before an optional hike of iconic Beacon Rock, a basalt column towering 848 feet above the Columbia River. Later, enjoy a private cultural and culinary event at a museum. (B,L,D)

DAY 4 • Cruising The Gorge
Today we will spend the day cruising through some of the most scenic and geologically interesting stretches of the Columbia River and the Columbia
Plateau. Our geologists provide fascinating insight on the glacial floods that sculpted the landscape 13,000 years ago, as our food and wine expert illustrates the expression of such unique terrain through its tastes and tannins. Relive the historic tales of the Corps of Discovery through the eyes of a historian as we sail by important landmarks. Or unwind with a massage in preparation for an exciting day ahead. (B,L,D)

DAY 5 • Walla Walla, Washington
Drive through some of the most fertile agricultural areas in the nation, with bright, rolling green and purple fields of sprouting wheat, asparagus, and famous Walla Walla sweet onions. Wine lovers can spend the day on a taste exploration of this world-renowned area, including a private vineyard tour and downtown wine walk. Or opt to visit the Whitman Mission, a standout museum and National Historic Site where friction between Native Americans and white missionarise erupted into an event that reverberates in our culture today.

DAY 6 • Palouse River
The still water of the Palouse River is the perfect mirror for the surrounding basalt cliffs as we set off on our Zodiac and kayak adventures. Visit Palouse Falls, where waters plunge 200 feet into a churning pool. These falls and the surrounding canyon with its towering cliffs, cavernous holes in the earth, and winding water routes are part of geologically unique channeled scablands created by ancient floods. Afterwards, sail up the Snake River, enjoying a taste of local specialties. (B,L,D)

DAY 7 • Clarkston
Today we find ourselves at the confluence of the Snake and Clearwater rivers, more than 450 miles from the sea. Travel by comfortable jet boat into spectacular, 125-mile Hells Canyon, North America’s deepest river gorge, mostly inaccessible by road. Observe remnants of the Nez Perce tribe, including ancestral horsetrails along the hillsides and petroglyphs on rock formations. In the evening we are joined by a Nez Perce storyteller, and a local winemaker hosts our final tasting as we toast an unforgettable journey before a special final dinner. (B,L,D)

DAY 8 • Clarkston/Disembark
After breakfast, transfer to the airport for connecting flights home. Choose to fly from nearby Lewiston, Idaho, or travel through the picturesque landscapes of the Palouse to Spokane, Washington, two hours away. (B)
